

## Getting started with the MCC 3100 for Windows Mobile

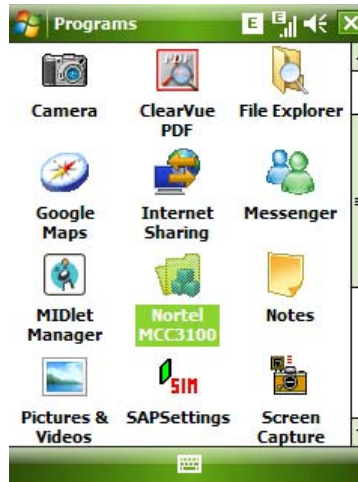

The Nortel Mobile Communication Client 3100 (MCC 3100) for Windows Mobile provides enterprise collaboration functionality to a supported device using a data (Internet) connection over the cellular network. MCC 3100 for Windows Mobile allows real-time communication with the Nortel Mobile Communication Gateway 3100 (MCG 3100) and a communication server. The term Communication Server means all communication servers that MC 3100 supports (see the MC 3100 Product Bulletin). For more information on the MCC 3100 for Windows Mobile, see *Nortel Mobile Communication Client 3100 for Windows Mobile User Guide* (NN42030-107).

### Important Notice:

Users are advised to select and use headsets that are designed to reduce excessive sound pressure levels or acoustic shocks. Users should check that their headsets meet their respective National or International Acoustic and Safety requirements.

### Starting the MCC 3100

On your Windows Mobile device, select **Start, Programs, Nortel MCC 3100**.

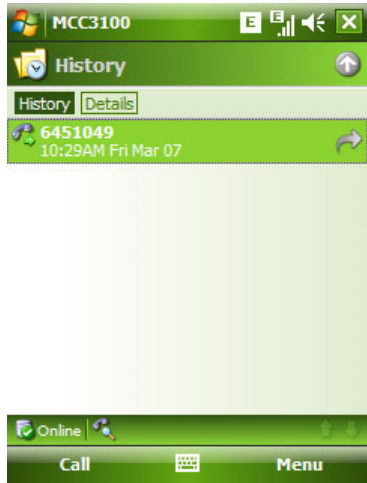

The MCC 3100 Main screen appears and you can use the application.

Placing or Receiving a call	Exiting or hiding the MCC 3100
<p>How the system handles calls depends on the configuration of your MCC 3100 for Windows Mobile. An outgoing call service DN is mandatory for MCC 3100 call features.</p> <ul style="list-style-type: none"> <li>In <b>Direct Outbound</b> mode, initiate calls directly from your mobile device to other parties through the enterprise telephony system.</li> <li>In <b>Call-me-First</b> mode, your calls are completed in two steps. First, the enterprise telephony system calls you. After you answer, the system calls the other party.</li> </ul> <p>Use both call modes to configure a service number in your MCC 3100 for Windows Mobile system settings. However, if you do not configure a service number, you can only use the Call-me-First mode.</p>	<p><b>Exiting the MCC 3100 application:</b></p> <ol style="list-style-type: none"> <li>Select <b>Menu, Exit</b> from the main screen.</li> </ol> <p><b>Hiding the MCC 3100 application:</b></p> <p>To hide the MCC 3100 application, select the <b>Minimize</b> icon from any screen menu. (The minimize icon is an "X".) When you access the MCC 3100 application again, you return to the last screen you used.</p>

## Voice Mail

### Accessing voice mail:

1. Go to the **Voice Mail** pane.
2. Select **Call Voice Mail**.  
The Mobile Communication Gateway 3100 (MCG 3100) connects to the voice mail server, then initiates a direct call from your device to the voice mail server.
3. When you are prompted, enter your voice mail mailbox number and password using the Windows Mobile phone application.

**Note:** You must use the Windows Mobile phone application to generate DTMF tones.
